## ABSTRACT

*In 21st Century desire of the users to use epublications are increasing day by day and ebook is also one of the several forms of epublications. Ebook is a book that you can read on your Personal Computer, Smartphone, IPOD etc. Emergence of ebook has brought new opportunities for users to read it at anyplace, anytime over the internet. These free ebooks also play a very vital role to fulfill the information needs of the users where the fund is limited for academic libraries. This paper highlights the free academic ebooks websites and web portals available over the internet for libraries to increase their electronic collection, enhance users' research experiences and advantages of ebooks.*

**KEYWORDS**: *Ebook, OAPEN, E-Books Directory, Project Gutenberg, Digilibraies.com, The Online Book Page, Classic Reader, FreeTechbooks, Bookboon.com, Advantages.*

## INTRODUCTION

"An ebook is an electronic version of traditional print book that can be read by using a personal computer or by using an ebook reader. An ebook reader can be a software application for use on a computer such as Microsoft's free reader aplication, or a book-sized computer that is used solely as a reading device, such as Nuvomedia's Rocket ebook."1

Different epublishing companies making different strategies and ideas on how to delivered ebooks with new hardware and software devices.

Electronic devices allows you to store hundreds of books at a time. There are number of formats availbale in market for downloaded ebooks but PDF, HTML and EPUB are very easy formats The basic task involved in creating e-books are same except printing and distribution costs. Ebooks are cheaper, quick to download, require very little space to store, printed easily if necessary.The first ebook was invented by Michael S. Hart in July 1971. He launched Project Gutenburg to create electronic version of Plain texts and make it available free to all.

# WEBSITES AND WEB PORTALS FOR FREE E-BOOKS

## ADVANTAGES OF E-BOOKS

a. Same ebook can be access by multiple users at the same time from anyplace over the internet.
b. Ebooks can be purchase instantaneously anytime, anywhere. It saves a lot of time.
c. You can download the required ebook less than five minutes.
d. Very little space is required to store the ebook on your computer or smartphone devices by solving the space problems for libraries.
e. Ebooks can be sent and received instantly over the network as and when required which is not possible with printed book.
f. There is zero percent chance of stolen the ebooks.
g. There is no effect on the quality of ebooks inspite of downloaded several times.
h. You can carry ebooks with you on CD, Laptop or any eBook reader without worrying their weight which is not possible in case of printed books.
i. Ebooks can be printed if the users are interested to read it in the traditional way.
j. Font size of the ebooks can be increase or decrease as per your need which is not possible with printed books.
k. Ebooks are available in several formats and one can download ebooks of his/her desired format for reading.

## CONCLUSION

The main purpose of all the academic libraries is to maximizing the access and services to their users at minimum cost. Majority of the users access the eresources which are available in their libraries website as there are not aware of the eresources which are freely available over the internet. Lack of budget always encourages academic libraries to search the websites and web portals where free eBooks can freely downloaded. Ebooks are less expensive and easy to read at home, office or any suitable place Free ebooks fill the gap which the libraries facing in physical books. Free ebooks will not only save the budget of the libraries but also save the time of the students, research scholars, Faculty and space problems for libraries. It also secure from theft and damage. Libraries should include the links of free ebooks on their library website so that multiple users can access the same ebook at the same time from any geographical locations over the internet.
