STRATEGY AND IMPACT OF SOCIAL PROBLEMS IN INDIA

Dr. Varsha Bhujabal
Dept. of Sociology, L.A.D.College Nagpur

ABSTRACT

Social problems are those problems which affects mainly particular individual, but a big chunking of people and caused them discomfort. No matter how much big it the problem is, but if the problems only affects one as few individual that does not count as a social problem, but an individual problem. So, social problems needs to affects the society as a whole in current scenario. Social problems in India is a major drawback for the Social problem occurs due to the ideal social deviation of progress of our country standards and the ongoing rules and regulations. social problems like poverty,unemployment, fascism etc are not a private personal needs to be tackled with problem to it group offered.

Social problems in India leads to be solved by government. Government though responsible for Solving social problems but government go is to solve all the problems. People and government's combine efforts are important to solve the social problems occurring in the country. Various problems are existing in the nation.

KEY WORDS- *Suggetions, Efforts, Plan, Government, NGO etc*

CHARACTERISTICS OF SOCIAL PROBLEMS

All social problems are deviation from the state of the society.
All social problems are interconnected to each other.
Social problems affected all types of people in a society, it is not an individual problem.
Social problems are not exclusive for India only, there will be social it affects if there is society, there problems. So, it is an universal issue.
Social problems needs attention and care for eradication, otherwise it will not be addressed. I never change. properly and and will never
All social problems are social in nature.

SOCIAL ISSUES AND PROBLEMS OVERVIEW

Through these characterizations we can see that social problems hurdles in the development of nation. Now a country like India, which is rich in diversity faces multiple social problems are not be that need to be addressed. Every country has different problems. India has multiple social problems viz. Caste,poverty,over population,corruption,slums are the main issues in current scenario.
India with its rich and diverse cultural background faces multiple social problems everyday. These are some of the major problem India is facing right now.
