Ключевые слова: Навои, этика, честность, афоризмы, образование, повествование

DISCUSSION

Alisher Navoi is a great figure who is the epitome of the consciousness and thinking of our people, the epicenter of the art culture, the incomparable representative of the national literature, the pride of our nation and the famous artist. In fact, there is no one in the world who speaks Turkish and Persian who does not know Navoi, does not love Navoi, or does not believe in Navoi. "If we call this great saint a saint, he is the saint of the saints, the thinker, the thinker of the thinkers, the poet, the sultan of the poets," I. Karimov.¹

The deeper the literature of the oriental peoples is, the clearer the literary relations between these peoples are. The study of literary connections provides a more complete picture of the creative power and influence of great artists and literary schools. In this respect, it is important to study the heritage of Navoi. As Navoi, the founder of a great literary school, has had a strong influence on the literature of several nations, such as mentor Nizami, it is also a great field to study his works. Orientalists have examined the heritage of Navoi to study the literature of the Uzbek people; studied in order to determine the Because Navoi is known as a great patron of the Tajik, Iranian, and Indian cultures, it has a strong influence on the literature of the Azerbaijani, Turkmen, Kazakh, Tatar, Turkish and Karakalpak peoples.²

Navoi appreciated and sponsored the education. The poet considers the spiritual maturity of a person, first and foremost, of his knowledge and wisdom. Science is not in itself, but it is believed that knowledge can only be acquired by passion and desire. Alisher has many meanings in the wisdom of Navoi. In his stories, emotions, such as knowledge, kindness, and humanity, play a central role.

Whoever worships the scholars

It seems that he was worshiping the prophet.

The poet values and honors the scholars. Including:

It is wise to learn a little,

There is a river that drops in one row

Navoi writes that in order to be educated, a person needs to learn a little, to accumulate knowledge, and to have some skills, which is like dropping water into a river.

And whosoever shall teach thee a letter hardly for the Way,

You cannot repay him for a hundred gold pieces.

These sentences refer to the first teacher. The first teacher helps his pupil to get an education, which gives him the right path. In these two verses, Navoi explains that he cannot pay the teacher's services with hundreds of treasures. It is worth noting that Navoi had a great respect for his teachers and knew what each of them said. In particular, the mentor of Abdurahman Jami:

" If you are not a teacher in the world,
Life has never been so beautiful. "He understood the
meaning of the phrase.

And he describes his teachers: "If a disciple is a
Shaykh al-Islam or a judge.
Make sure that the teacher agrees and is pleased with
God. "

Alisher Navoi appraises first of all his life. The
appearance of humanity is piety and piety. In the
mind of a heart-wrenching person, only those who
can speak the truth in any case, and who act in truth,
deserve the name of a man. On the contrary, change
in circumstances, preserving one's identity and being
afraid to speak the truth is a sign of unbelief. Being
part of the bad and doing good is a bad example.

Jalaluddin Rumi said about this: " He said he
was deprived of his morals and he lost the grace of
Allah.

Clearly, the appeal of these two great men is
not accidental. Their exhortation is that the wisdom of
teaching is so important to our lives.

Navoi's rebuke is based primarily on his own
observations. Pure beliefs reflect on the demands of
public opinion. Summary opinions from the great
experience of great human thinking, "Walk close to
good, stay away from bad" 'If you tell me who you
are, I'll tell you who you are'.

The notion of a good person or of goodness
has a broader meaning in the mind of a good-hearted
person, and it combines beautiful qualities that adorn
a person, such as faith and belief, habits and
imagination. The criterion of humanity is to live not
only for themselves but also for the benefit of others.
For example, the next sermon of the preacher is about
good:

"Baxlning andoqki, butun topqoni zaxira bo'lg'ay,
tong va qabri ham bu kungi maoshi uyidek tiyra
bo'lg'ay.Zuhdu taqvo barcha vaqtda dilpisanddur,
ulug'lar nazarida arjumandroq . Yaxshiliq va
yomonliqni kim qildikim , jazo ko'rmadi. Saloh va
fasod tuxmin kim ekdikim, o'rmadi"

The poet further clarifies and contributes to the
following byte of his thoughts on human errors and
attributes:

Yaxshiliq tuxmin sochg'ilkim budur dehqong'a so'z,
Har nekim ekdig bugun borin hamon tut oning ko'z.

Alisher Navoi believes that striving for
learning is one of the most important qualities that
will help to achieve human perfection. They describe
science as a factor that saves a person, a nation from
ignorance and ignorance. The ideas put forward in
their works encourage people to become more
educated and enlightened. The thinker acknowledges
that it is the human duty of everyone to learn science.
After all, the aim of learning is to contribute to the

prosperity and wellbeing of the people and the
prosperity of the country. Educated and wise people
always believe in the best interests of their people and
the prosperity of their country.

All works by Alisher Navoi are an important
treasure for the upbringing of young people. He was
able to use every word effectively in his works. Each
of his wisdom is a lesson for us. The life and legacy
of Alisher Navoi is a good example for us in
nurturing universal human qualities. The great poet
contributed to the upbringing of a harmoniously
developed generation, and his ideas about universal
qualities are also relevant to our day.
