ABSTRACT

In astrology one can study a wide variety of categories within oneself. In ancient times, astrology was highly valued for its health benefits. The most prominent of these is medical astrology. Medical astrology has developed in different ways in different countries and influenced by many different factors. Thousands of years ago, astrology was practiced as a means of divination. In astrology, the sun, moon, planets, and outer space stars are used to predict future events. Astrologers were the ones who handled the medicine very well here, while physicians also offered surgical treatment to patients. Based on this, they predicted the harm to the country, knew the disease coming through it and treated the medical system accordingly.

KEYWORDS - Navagrahas, Dasa, Buddhi, Andara Nathan, Lagna, Rahu, Ketu.

I. INTRODUCTION

Nature has shown us in many ways that every living thing is unique. Although everyone in a family has been following the same diet for many generations, not everyone in the family gets the same disease. This does not mean that diet alone is the root cause of diabetes. Our focus is to establish and confirm the theories concerning diabetes, the impact of the six - eight - twelve houses that cause diabetes, as well as the effect of the planets Venus, Jupiter, Saturn, and the Moon, which are also believed to be factors causing diabetes. 'Diabetes in Medical Astrology' presents a comprehensive review of diabetic patients being treated and medications available in hospitals and using astrology and the structure of the planets, this study seeks to determine which planets cause diabetes by analyzing their horoscopes, as well as how to protect themselves from this disease using astrology.

II. CONGENITAL IMMATURITY IN DIABETES

Every human body has some immaturity in their body anatomy. Such immature zones lead to various diseases. Lesser the immature zones better the health condition. Congenitally immature parts of the body become the principal factors of death in the long run. Congenital immaturity is such a natural phenomenon which can't be resisted by any means.

Hence the life is dependent on the planetary influence. The reasons for Congenital immaturity were attributed to the strength of the birth star i.e., natal moon position. Congenital disease is a disease or disorder that is inherited genetically from immediate parents or some grandparents in the family dynasty. This can be either paternal side or maternal side. These symptoms of disease may be controlled in a generation, by medicines / by any other curative methods. Still the recurrence of such symptoms cannot be ruled out in any of the next generations in the family.

III. ASTROLOGY AND GENETICS

DNA is chemical material that governs inheritance in living beings. The structure of DNA in human body has a similarity to the spiraling pattern of planets in solar system. DNA contains the code of human life. Planets indicate the cosmic code of life. Planetary configurations at conception and at birth time influence the genes of the child. The natal chart gives information on genes and genetic engineering in a body.

IV. ASPECTS IN DIABETES HOROSCOPES

1. The planet in the star of the sixth lord creates or develops the disease of the planet seen with the sixth lord.

- The sixth house in Lagna brings planetary disease and the planet standing in a star, a planet belonging to, a planet seen or developing disease that develops diabetes.
- The two hostile planets are in the same zodiac sign or look at the same zodiac sign, the zodiac sign is to be treated for disease or surgery or injury.
- Dasa, Buddhi brings disease when traveling in the negative zodiac signs in the constellation of the planets standing in the star of Andara Nathan.
- The most visible planet in a horoscope and the least visible planet can cause or develop disease in the horoscope.
- Rahu, Ketu, which is close to a lagna, is capable of congenital disease.
- The planets that saw the sixth lord will get the disease of signfulness or housefulness or the planets who saw the sixth lord will get the disease of signfulness and housefulness.

- The disease occurs because the planets have a transitional relationship with each other and are associated with six-eighth house interactions.
