FARM BASED SUPPLEMENTARY EARNING OPPORTUNITIES

Dr. Vijayalaxmi Nandapurkar
Associate Professor, Orange City, Koradi, Dist. Nagpur, Maharashtra, India

ABSTRACT

Mostly, the Indian Farmer follows the traditional way of farming. In India, the cultivation pattern differs from east to west and from North to South depending on geography climatic Variability. Mostly, Indian farming depends on rain water harvesting. The total agriculture produce also differs from East to West and from North to South, depending on the Climatic conditions. The total output of rain is also different at all over in India, depending on the geographical climatic conditions. In India, most of the regions have flood related situation and at the same time, at other place in people have to face situation like draught. In both the situations, Indian farmers have to suffered a lot.

KEY WORDS: farming, land, farmers

INTRODUCTION

At most of the places in India, farmers depends mostly on rain water harvesting and hence majority of them cultivate their farm land just for six month and for the remaining six month in the year, many of them have absolutely no work at all, some of them deals with some sort of seasonal business at the meslanious level.

OBJECTIVES

1. To encourage the marginal farmers to establish agro process units.
2. To encourage the farmers to use barren land by using their skill for various purpose.
3. To stop the migration of farmer to the metro cities during off farming season.
4. To encourage and to raise the per capita income of the family at the rural level by establishing small agro based process units at the village level.
5. The process of establishing agro process unit at the village level will be helpful to establish rural infra structure.
6. Rural economy will be get flourished.
7. Banking activities will get enlarged.
8. Government will generate some sort of taxes, which will raise the government earnings.
9. Multiple numbers of employment opportunities will gets increased both directly and indirectly.

FARM BASED OPPORTUNITIES FOR SELF EMPLOYMENT

1. The concept of Agro-tourism will be get implemented at the much better level.
2. Opportunities for seasonal fruit cultivation and process unit for the same.
(3) An opportunity to cultivate various types of medicinal plant and their process unit.
(4) Sale of various forest products directly to the consumers, both in the rural and urban Sectors.
(5) To developed the nursery and garden maintenance activities.
(6) Oil extract unit based on paddy, Jatropha various type of flower and other herbs.
(7) Milk produce and milk based process unit should be developed.
(8) Animal bird and cross bird unit progress should be established.
(9) Fishers programmed should be developed.
(10) To vender various technical and farming service to the marginal farmers.
(11) To encourage farmers for soil testing progress to increase the total agro produce.
(12) To attract the urban people to come to village get start the bullock cart ride, horse, camel ride and other rural crafts.
(13) To developed picnic spots, Bird watching point, Hunting points at the city out strict etc.
(14) To get start the sugarcane, cotton process unit and the wool process units.
(15) Encourage sheep farming programs.
(16) To get remove the soil from the dry ponds and lakes.
(17) Every farmer should be motivated to cultivate saga trees, Bamboo cultivation and also eucalyptus cultivation.
