1.Relevance of the topic. Disciting new nationalities in the Uzbek community in the Uzbek people of the Uzbek people in the context of the independent development of our country is teasing the new statehood in the Uzbek community, to modernize the activities of self-government in the formation of civil society. Tolerets, one of the democratic principles,

are clearly arising not only states but also in individual levels. At the same time, I have to say that in today's globalization, to comply with the needs of the important factors of world policy, about 200 of more than 1,600 nationalities, about 200 nationality have only one of the more than 1,000 nations, ensuring interethnic harmony throughout this

environment For regular study of their interests, psyche, aspirations, this is always consideration in political, social life, has shown the consequences, causing serious benefits, and the consequences.

Tolerance means respect for the lifestyles of various ethnicity people, respectively and religious views. A modern concept of tolerance should be noted that in the forming this concept, UNESCO is important. [1.34.b]

Today, the Israeli President has adopted a number of decrees in the country, as well as the formation of interethnic relations on the basis of democratic inter-ethnic relations, "on May 19, 2017" Interetharian relations and friendship with foreign countries. The decrees "On Improvement" Decrees are first established by the Cabinet of Ministers of the Republic of Uzbekistan, and at the same time the following tasks were set; Ensuring relations and cooperation of government agencies with national cultural centers and friendly services located in the country; The tasks of presiding and developing unique national traditions, customs and pics of different nationalities and pics living in our country are the mutual understanding of many candied neighborhoods, as well as the only Uzbekistan ". I would like to emphasize that the universal ideas, strengthening equal mutual beneficial relations for them is one of the priorities of our state policy. The issue was also taken by the appeals of our President Sh. Mirziyoyev, 2020-May Be 30 December: "We will take our work to a qualitatively new level in society. It is well known that with a resolution of the General Assembly of the United Nations annually, July 30, the Day of International Friendship of International Friendship. [5.70.b] It is a great family of about 10,000 mahallas in Uzbekistan, which is a huge family, which has never been defeated in the history of different religious denominations, and the Uzbek

people are still tolerant of being depressed. When the President described the neighborhood as Sh. Mirziyoyev as the "Democratic Career", they noted that they meant democratic and universal universal principles of multiental neighborhoods. As a symbol of the neighborhood system, we consider it expedient to pay a great deal of attention to the principle of tolerance in the places where tolerance. Zero, "New Uzbekistan" is based on the principles of mutually beneficial and equality - "Let's live free in Uzbekistan and prosperity." Requires to unite around the good idea. The Republican International Culture of Culture and the Republican Charitable Foundation "Mahalla" of the republic held scientific-practical seminars and roundtables on "Uzbek multi-ethnic family." The extent to the chairmanship of the organizer, organizer "Afrosiyob" such as Afrosiyob in Tashkent is also indication of the extent of interethnic harmony in Uzbekistan. [1.38.b] "In the implementation of the neighborhood management, the views of different nationalities living in the neighborhood and religious world views should be taken into account based on the principle of religious tolerance. The neighborhood must be chaired by the organization and conduct of measures based on their national and religious values. It is advisable to operate on the basis of "mahalla - all of us,". In the democratic development of society, the interest of citizens must be fully addressed. To do this, representatives of the community should be acquainted with the official concepts of religion, the general information relating to religion. "[4.45.b] During the years of independence, it was focused on the unique aspects of the organization of multi-ethnic, candy mahallas, where sufficient legal conditions have been created for comprehensive work of other nationalities to work in every direction. The data obtained during the study showed that one of the two respondents are almost a multi-ethnic state. According to the appeal of the head of our state in appeal, in 2021 the economy of our country was aimed at increasing at least 5%. However, the uncertainty in the global economy requires a long time to find and mobilize additional reserves of economic growth. Therefore, the President sets out the task of explaining and developing the "growth points" in the field of all levels.
